The foundation of any effective genre unit lies in deliberately selecting appropriate genres. Sixth graders are equipped for a larger spectrum of fictional styles than less mature readers. While classics like modern fiction remain important, incorporating genres like thriller stories, fantasy fiction, historical fiction, and even rhyme can significantly enrich their literary taste. This involves educating them about the characteristics of each genre—the typical plot structures, narrative techniques, and motifs often explored. For example, students might discover that mystery novels often involve a main detective, a complex crime, and a series of clues that direct to the solution.

Engaging activities are essential to making a genre unit both productive and fun. Debates about the novels read can deepen grasp and encourage critical thinking. Creative writing assignments allow students to use what they've learned by crafting their own stories within the chosen genre. For example, students might write their own mystery stories, developing their own plots, characters, and clues.
